Meet the Letters! U C B N H

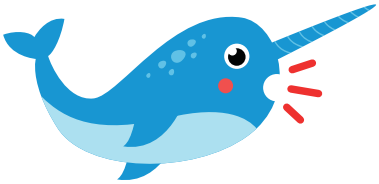
Directions: Cut out letters U, C, B, N, and H from the set of double-sided Letter Cards. Ask children to identify the letter on each card and say the sound into the Phoneme Phone. Have children trace the upper and lowercase letters a few times with their pointer finger. Then, use modeling dough to mold the shape of each letter. For extra practice, challenge children to use modeling dough to create something that begins with each letter.

Have children repeat the sentences below into their Phoneme Phone.

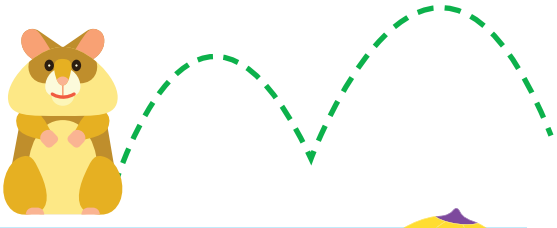
B: Buzzing bees build beautiful boats!

C: My colorful cat carefully cuts cucumbers.

N: The noisy narwhal never nibbles noodles.



H: How high did the happy hamster hop?



U: Come under the utterly ugly umbrella.

More Ideas

The letter sentences above are not only silly, but also work as mnemonic devices to help children remember their letters and sounds. Challenge children to create their own silly sentences for the letters.
