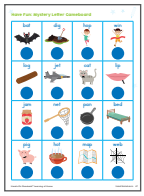
Letter Sound Knowledge: Guess the Mystery Letter Game

Materials:



Mystery Letter Gameboard

Phoneme Phone

Chips

Magnetic Wand

Directions:

1. Begin by setting up the Mystery Letter Gameboard. Place a colored chip of any color on each circle.
2. Have an adult go first to model game play. Secretly choose a word from the gameboard that has a chip on it. Give children letter sound clues so they can try and guess the mystery word. Say, "I am thinking of a word that begins with a /b/ and ends with a /t/."
3. Using their Phoneme Phone, children can repeat the clue sounds and picture names that they see on the gameboard to guess the mystery word. To guess, they can grab the corresponding chip with their Magnetic Wand.
4. If a player correctly guesses the mystery word, add the chip to their pile. If not, that's okay! Replace the chip and try again on the next turn.
5. Take turns until all the chips have been taken. Whoever collected the most chips is the winner!
6. For more fun, try giving letter sound clues from different parts of the word. For example, say, "I am thinking of a word with starting sound /b/, middle sound /a/."

Connect to Social-Emotional Learning

Use they Mystery Letter Gameboard to play a descriptive vocabulary game. Say, "I am thinking of a picture that makes me feel sleepy." Children must use your descriptive clue to guess the correct picture. In this case, the answer might be *bed*. Not only does this game build vocabulary skills, but it also challenges children to think closely about the emotions or sensations that certain objects evoke.
